

R AND STATISTICS WORKSHOP

WEBINAR 15TH-16TH JULY 2025

CONFUSED BY STATS?
NEED A REFRESHER COURSE IN R?

Under the guidance of Dr Davina Hill (Lecturer in Welfare Physiology at the University of Glasgow), this two-day training webinar will give you an introduction to the statistical software package 'R', a refresher on experimental design, and support with using robust statistical analysis in your own work. Whether you are new to the software or need an update, this training webinar will refresh your knowledge and enhance your skills.

BSAS Register - 24 CPD points
