

BSAS Animal Science Undergraduate Thesis of the Year Award 2024

Do you have animal science and related subject students that deserve special recognition?

The BSAS Undergraduate Thesis of the Year Award 2024 competition is open to universities and colleges that have students participating in animal science related courses.

The award looks to acknowledge the best of undergraduate research and offers the winner the opportunity to have a summary of their work published on the BSAS website. The prestigious award aims to demonstrate the quality of animal science students and their work globally, to both academic and industry audiences.

To enter this competition, you are invited to submit up to 2 entries showcasing the highest quality theses or dissertations, submitted in 2024, from your animal science students. We are accepting theses on a diverse range of subjects, covering any species - companion, livestock or zoo, in all fields of animal science.

**Win an
opportunity to
present at the
BSAS Annual
Conference
2025!**

- ✓ The student has to be a member of BSAS
- ✓ Student membership costs just £25
- ✓ Join [here](#)

The award
opens in January
2024
and closes on
31st July 2024
