

EQUINE CONFERENCE 2025

**Combining scientific principles
with effective horse owner
care practices**

Uniting science with hands-on practice in horse care, this conference will delve into vital subjects such as nutrition, rehabilitation, behaviour, welfare, health, genetics, and horse/rider performance. Through a blend of scientific presentations and engaging workshops, we aspire to connect cutting-edge research with practical implementation for all participants.

**MACDONALD
BURLINGTON HOTEL
BIRMINGHAM
21-22
NOVEMBER**
